

PACKAGED LUBRICANTS AND ACCESSORIES

EMERGENCY DELIVERY CONSIDERATIONS

All Jackson Oil & Solvent Inc. delivery policies are designed to optimize both delivery efficiency and quality control. Truck scheduling is based on optimizing loads and requires a reasonable lead time between the time an order is received and the time the product is required in your place of business.

We recognize that emergencies can occur in any operation; therefore, we are pleased to be able to make an emergency delivery service available for our lube and automotive accessories customers based on the following rate schedule. Emergency deliveries are defined as deliveries that must be made the same day the order is received, orders that must be delivered after regular business hours, on weekends or holidays.

1. There is a \$75.00 per hour round-trip charge during standard operating hours, with a minimum charge of two hours.
2. If the emergency occurs after hours or on a weekend, there is, in addition to the above hourly charge, a flat fee of \$100.
3. Emergencies that occur on holidays incur a flat fee charge of \$200 in addition to the hourly trip charge listed above.
